Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Specification:

On Page 1, in the Continuing Data, after "09/690,936 filed October 18, 2000," insert --now U.S. Patent No. 6,608,191,--.

The above amendment was necessary to update the status of a parent application listed in the Continuing Data.

The outstanding provisional obviousness type double patenting rejection of claims 23 and 28 over claims 2-5 of the 10/454,293 (hereafter the '293 application) application is withdrawn. Amendment of the claims in the '293 application to recite that the claimed oligonucleotides are double stranded RNA molecules also renders the obviousness type double patenting rejection moot.
